

FORTIETH YEAR

BISMARCK, NORTH DAKOTA, TUESDAY, JUNE 21, 1921

PRICE FIVE CENTS

DESCRIBES TOUR
IN BAD LANDS
FLOODED AREASJ. B. Saylor, of Bismarck, Makes
Trip in His Automobile

TELLS OF GREAT DAMAGE

One Cannot Realize Extent
Without Seeing it, He Says

"I have heard stories of cloudbursts and always thought they were exaggerated—but the accounts I read in 'The Tribune' were mighty convincing," said J. B. Saylor, district manager of Thompson Yards Inc., who has returned to Bismarck from a motor trip into Montana.

Mr. Saylor was on the edge of the terrific storms which swept western North Dakota and eastern Montana, and he passed through the devastated territory on his return. It is believed Mr. Saylor was the first autoist to reach Bismarck after passing through the district.

Mr. Saylor reached Beach Saturday noon, after having been in a hail and rain storm at Carlyle, Montana.

Could Swim a Horse
"Beach was a town tilted with rubbish and drift wood," said Mr. Saylor. "Wooden sidewalks had been floating around in the water and they were found most any place after the water receded. At one point west of the Golden Valley hotel there had been enough water in the streets for a horse to swim in. The Golden Valley Lumber company had just put a carload of cement in a storehouse. The water rose five feet in the place, destroying most of the cement."

The cloud from which water burst over a large area centered near Beach, extended nearly west to Williston and moved north and circled over Medora and the Bad Lands. Mr. Saylor said.

West of Beach there was a strip of one-half mile of Northern Pacific track which was carried beyond the wagon road, 100 feet away, by the current, he said.

Between Sentinel Butte and Medora there were seven gaps in the railroad. Between Sentinel Butte and Beach the country is fairly level and the damage, which was caused chiefly by the rush of waters from ravines, was not great.

Ten Rocks Moved
"A Northern Pacific superintendent told me that there were many places along the road where rocks weighing from 100 to 1,000 pounds, and even some weighing 2,000 pounds, were moved 100 to 200 feet by the wall of water," Mr. Saylor said. "It seems almost unbelievable, but one can believe these things after seeing results of the cloudburst."

No. 7 had gone over the track near Rider, where three section men lost their lives, about 30 minutes before the men were drowned, and they believed the track safe, Mr. Saylor said. This was after the cloudburst. However, the great damage was not done until an hour or two afterwards when the water rushed down from the hills. The men on the speeder turned a curve where the track had been broken and were swept into 30 to 40 feet of water, Mr. Saylor said. The speeder turned over. The section foreman held on to a slender support for two or three hours before he was rescued, holding one of the drowned men by the hand, but finally became exhausted and the man slipped from him to his death. The body of one man which was not found is believed to be in a coulee, which was filled with 2 to 3 feet of mud and still has 20 feet of water in it, Mr. Saylor said.

Bridges Gone
"There are no bridges in the Bad Lands," Mr. Saylor added. "We found three that were out and made detours at the fourth place a man with teams pulled auto tourists across the now shallow but muddy stream. He was very reasonable with tourists, charging them \$1 for the work."

At Belvidere I found 20 tourist parties waiting to get through to continue their motor journey. When I told them I had come through they shouted with joy and started out."

The Northern Pacific is making great efforts to repair the track quickly, Mr. Saylor said.

Hardly had the cloudburst damage ended before there were work trains on the job, he said. "There were 40 men working when I came through. In addition to the trains there are autos, trucks and horse equipment carrying materials to washed out places."

The body of Soldier Kirkpatrick which was being brought home from France to Beach for burial, was on a train held up by the washout. On the road to Bismarck Mr. Saylor met an auto truck carrying the body, with two soldiers accompanying it. They were making the remainder of the journey to Beach by this method over bad roads and through flooded bottoms.

No More Lives Lost
Mr. Saylor believes no lives were lost excepting those of the section men, although many ranchers and farmers had narrow escapes from rushing waters, he said. Barns were blown down, and lightning struck many. The hail damage, he said, was not great.

During the storm, which lasted from 3 to 5 o'clock Friday afternoon, it became very dark, he said.

MISSOURI WILL NOT
HIT FLOOD STAGE
Today said he did not believe the Missouri river stage would go over 12 feet as a result of the recent heavy rains. "The river rose three tenths of a foot yesterday and is still slowly rising. The ferry could not operate this morning because of the heavy current and wind. No damage from overflow is expected the weather observer said."

Dickinson, with 62, Bottineau with 62, Bowbells with 16 and Williston with 11 inches of rain, were the only places reporting rain since yesterday.

MRS. STILLMAN RESTS ON FARM

Between hearings of the Stillman divorce case, Mrs. James A. Stillman rests on the estate of John E. Mack, guardian of her little son Guy, at Poughkeepsie, N. Y. She is shown here with Mack's Jersey cow.

RICHEST GIRL IN WORLD
SAYS SHE HATES MONEY

BY R. J. GIBSONS
Chicago, June 21.—"Money! How I hate it! There's no fun in being rich. All my wealth has brought me sorrow and discomfort. I'd like to lose every penny—just dump the whole mess some place!"

The speaker was the richest girl in the world, Miss Dellora Angell, who is 18 and worth \$40,000,000. She avers she is the "poor little rich girl" of the fairy tale.

An accounting just filed in the courts shows that \$178,000 was spent on her in the last two years. \$100 a day.

At 16 she inherited all the millions amassed during a spectacular life time by her famous uncle, John D. Rockefeller. John W. Gates, the traction magnate, interviewed Dellora at her million-dollar palace in Lake Forest, where her every movement is closely guarded. She wore a very simple dress of white. She appeared most disconsolate. In a plaintive voice this child of the gilded cage said that "gold is not everything."

"Do you know," she continued, "I'm just sick and tired of being pampered and fawned over. I want to get out and do something worth while."

"Like what?" inquired another people giving their children a chance, for example. But here, she surveyed the room with a sweep of her hand—"It's just sameness—dinner, or luncheon, school sitting in stuffy rooms, talking meaningless talk. Oh it's so boring!"

But shouldn't you be content, surrounded with everything most people struggle all their lives to get money?"

"Some people are quite silly and I'm not," exclaimed Dellora. "So please remember that."

Money is a bother. I hope to use mine for good works, education and charity. But just yet, of course, I've made no definite plans."

"Naturally I'm grateful for what has been given to me. But look at all the good times I miss because I'm rich. Before I became so wealthy I could go outside and walk through the town."

GIVE \$25,000
TO CHINA FUND
Fargo, N. D., June 21.—In announcing the closing of China relief work in the state, H. A. Sholder, field director, announced that approximately \$25,000 was given to the relief of famine sufferers by North Dakota people.

PLEDGES AID
TO AMERICA
Lloyd George Says It Is Firm
Policy of Great Britain

London, June 21.—(By the Associated Press.) Cooperation with the United States is a cardinal principle of Great Britain, declared Prime Minister Lloyd George to the imperial conference here yesterday.

We are ready, he said, to discuss with America's statesmen an proposal for limitation of armaments which they wish to set out and we can undertake that no such overture will find lack of willingness on our part to meet them.

without fear. Now it's different. Somebody might try kidnapping me. And then all this fuss they make over me, too. It's disgusting. I hate it. I'm tired of being in the public eye. You can't imagine how terrible it is."

"Miss Angell, what would you care to do and be above everything else?" I asked her.

She paused for a moment and then replied: "Most of all."

"Well, I'll tell you, but you mustn't laugh! I want a little house for my very own, with no maids or servants, and a nice little kitchen with a stove and everything."

"You can have the dandelion pies and cakes, and make the loveliest salads. They taste like, dad says so."

Is that all you want—just the house? Isn't there going to be a good-looking husband around some place to make the scene complete?" I ventured.

For a moment she was confused. "Perhaps, perhaps, some time. But just now I can't think of husbands. I'm too busy learning how to live and how to manage all this money."

She denied specifically that she's engaged a report that had been current for a dozen times. She denied, too, that she especially favors any one young man.

I want to be a simple, natural girl. Folks probably imagine I sleep in a gold bed and swim in lakes of pearls. But they're wrong. I spend very little on myself. I have a little spending account to plan money, not very much about \$100 a month. Please let people know I'm not a waster. I'm not going to be an idle spender—not on your life."

We're here to help others, and when we do that, of course, I'm not planning on anything like that now—you don't take a penny with you, not a cent."

Dellora is unassuming; her eyes are a wonderful brown, her hair is brown, her every movement is graceful, her entire bearing bespeaks refinement and culture.

STEEL UNION
IS POSTPONED
Conditions Not Right For
Launching of Drive

Denver, Colo., June 21.—The opening of the actual nation-wide campaign to organize the steel industry has been postponed indefinitely, because of the industrial depression it was officially announced here by the executive council of the organization of workers in the steel industry affiliated with the American Federation of Labor.

Reports received by our committee indicate that conditions throughout the country in the steel industry are the worst in many years and thousands of workers are out of employment. It was felt that it was not the time to make a move for organizing the industry. Secretary Weeks told graduates of Tufts college.

BOMBERS SEND
GERMAN U-BOAT
TO THE BOTTOMTests Made to Demonstrate
Efficiency of Air Craft
Against Subs

PLANE DROPS IN OCEAN

Naval Ship Carrying Ten Men
Falls Into Hampton
Roads

Washington, June 21.—Naval bombers made short work of the former German submarine U 117 in the opening phase of the tests arranged by the government to demonstrate the efficiency of the airplane against modern sea craft.

The first division of seaplanes sent out to bomb the submarine 50 miles off Cape Charles lightship sent the former German U-boat to the bottom quickly, Commander Ellis, executive officer at the Hampton naval base reported to the naval department on the basis of radio dispatches from the bombing squadron.

Just after the submarine was sunk, Lieut. Col. Oliver flying an army plane, crashed down near the U. S. Henderson. He and his assistant were rescued by naval boats.

PLANE CATCHES FIRE.
Washington, June 21.—The naval seaplane No. 7 caught fire while 150 feet in the air and fell into Hampton Roads today with her crew of three officers and seven men, the navy department was advised by the commandant of the Hampton Roads Naval Station.

The machine was reported a complete wreck, but none of those aboard were injured, though one man was made ill by drinking a mixture of salt water and gasoline while struggling in the water.

The crew was rescued by a nearby tug, but the plane could not be saved. The report to the department said, the plane was not participating in the bombing expedition of the former German submarine.

The plane had only recently been completed and was running low over the water when an explosion of unknown origin occurred. It quickly caught fire and dropped into the water.

FINDS CROPS
IN GOOD SHAPESlope County Only One Needing
Rain, Says Olson

Crop conditions in western and southwestern counties are generally excellent, according to O. Olson, who has returned from an automobile trip through that territory.

Slope county is the only county that has generally suffered from lack of rain, he said. There is a stretch in Morton county around Alamog where has not had sufficient moisture. At all other points he visited in Morton, Stark, Hettinger, Adams, Bowman and Slope counties he found crops in fine condition, Mr. Olson said.

IRISH KIDNAP
RICH NOBLE

Cork, Ireland, June 21.—(By the Associated Press.)—James Francis Bernard, fourth Earl of Bangor, was kidnapped this morning from his residence in Bantry County, Cork, by a band of armed men. Castle Bernard, his home, was set afire and early this afternoon was still burning. His whereabouts are unknown. He owns about 41,000 acres of land.

IMMIGRANT BILL
PASSES HOUSE

Washington, June 21.—The Johnson bill to permit aliens who sailed on or before June 8 last to land at American ports was passed by the house.

NOT TIME TO
DISARM—WEEKS

Meiford, Mass., June 21.—The administration is in favor of disarming as far as it is possible to do so, but this is not the time to make a move for overhauling peace. Secretary Weeks told graduates of Tufts college.

WILL SETTLE
SHIP CLAIMS

Washington, June 21.—President Harding has approved a plan for placing a settlement of approximately \$400,000,000 in claims against the ship-owners in the hands of a commission of three arbitrators to be appointed by the president.

N. P. DETECTIVES, ARRAIGNED ON
MURDER CHARGES IN JAMESTOWN,
ASK TRIAL IN ANOTHER COUNTY

Jamestown, June 21.—Henry Kearns and William Wyant, N. P. detectives charged with the murder of three transients here on May 8, were arraigned in district court this morning. An affidavit of prejudice was filed by their attorneys, saying it was impossible to secure a fair trial in Stutsman county because of the prejudice existing.

The state entered no objection to the change of venue, but asked the court to increase the bail in view of the fact that there were now three murder charges against each of the defendants. Judge J. A. Coffey granted the petition of the defense for a change of venue, but denied the request of the prosecution for an increase in bail, deciding that the bail of \$8,000 each was sufficient. The judge intimated that he would send the case entirely outside of this judicial district and stated that place of trial would be announced later.

CUT GAS HALF
CENT IN EAST

New York, June 21.—The Standard Oil company of New York today announced that the wholesale price of gasoline had been cut to 24 cents a gallon, a reduction of 12 cents.

Texas, June 21.—Gasoline was sold at 15 cents a gallon today by two local filling stations. Other stations were charging 17 and 18 cents.

RAILWAY BOARD
HOLDS AGAINST
PULLMAN ACTIONCompany Loses Open Shop
Fight Before Railway
Labor Board

DELAYS CUT IN WAGES

Chicago, June 21.—The Pullman company lost its "open shop" fight before the United States Railroad Labor board today when the board upheld the contention of Union Leaders that the company had not "obeyed the letter and spirit" of the transportation act when it conferred with its employees in mass meetings.

The board threw out the company's petition for a cut in the wages of its shop employees and instructed it to go back and meet the "duly elected" representatives of the employees.

The shop crafts and clerks in the Pullman company works are involved in the case. The board's decision will delay any action on a reduction in their wages for several weeks. Under the transportation act the company must meet the union leaders and in the event they fail to reach a decision file a petition before the board and ask a new hearing.

The controversy between the Pullman company and the union is a continuation of labor difficulties dating back several years over the "open shop." The company has declined to deal with union officers in matters affecting all employees.

When the company proposed a wage reduction recently mass meetings were held and all employees were invited. Union representatives contended that conferences should be with themselves as duly elected representatives of their employees and not with the employees en masse.

ARCHITECTS IN
STATE MEETINGHold Convention in Bismarck
Today to Talk Trade

Building questions will be discussed by members of the North Dakota Architects' Association, which opens its convention in Bismarck this afternoon. Fifteen architects from several cities are expected to participate in the discussions.

Following their arrival this afternoon they were to be taken on an automobile trip about the city, arranged by A. Van Horn, of Bismarck. A get-together meeting, followed by a luncheon at the Grand Pacific hotel, and a meeting in the Commercial club were on the program. The business of the association will be completed by tomorrow, in time to permit the visitors to leave on the afternoon train.

Officers of the association are: President, W. B. Hancock, Fargo; Secretary, R. B. Boyd, of Jamestown.

ELKS BASEBALL CLUB HURLS
CHALLENGE TO CITY TEAMS

The Elks baseball club hereby extends a challenge to any base ball club in the city made up of members of the Lions Club, Town Criers, Rotary Club, Commercial Club, Woman's Business and Professional Club, Masons, Odd Fellows, Knights of Pythias, Workmen, Woodmen, Knights of Columbus, Salvation Army or the Catholic Daughters of America. The challenge is open to the swimming pool.

Woodman, Jr., is manager of the Elks team. He is desirous of receiving acceptance of this challenge at once so that a schedule of games may be arranged for by the first of next week. Professional ball players will not be permitted to play but will be allowed to offer suggestions from the grand stand during the game announced by Woodman, Jr. press agent.

The time up for the Elks has not yet been given out but it is understood that either P. R. Hobbs or W. A. Mc

CITY ELECTION
ON BONDS WILL
BE ON JULY 26City Commission Adopts Resolu-
tion Ordering Questions
Submitted

\$30,000 ISSUE OF BONDS

Number of Cement Sidewalks
Also Ordered in at Com-
mission Meeting

A special election will be held in the city on Tuesday, July 26, at which voters may express themselves on the question of the issuance of \$30,000 bonds for the purchase of the motor fire apparatus, remodeling of detention hospital and purchase of incinerator.

The city commission ordered the election at its meeting last night. The polling places will be open from 8 A. M. to 9 P. M. on those days. The questions which will go before the voters are expressed in the resolution adopted as follows:

"Shall the city of Bismarck issue bonds in the sum of \$15,000.00 in denominations of \$1,000 each, payable in ten years, with interest thereon at the rate of 6 per cent per annum, said interest payable annually, and said interest payments to be evidenced by interest coupons attached to such bonds for the purpose of purchasing a fire truck and fire engine, and other fire fighting paraphernalia?"

"Shall the city of Bismarck issue bonds in the sum of \$10,000.00 in denominations of \$1,000 each, payable in 20 years, with interest thereon at the rate of six per cent per annum, said interest payable annually, and said interest payments to be evidenced by interest coupons attached to such bonds for the purpose of building and constructing an addition to the present detention hospital?"

"Shall the city of Bismarck issue bonds in the sum of \$5,000.00 in denominations of \$1,000 each, payable in 20 years, with interest thereon at the rate of six per cent per annum, said interest payable annually, and said interest payments to be evidenced by interest coupons attached to such bonds for the purpose of buying, constructing and installing an incinerator in the city of Bismarck?"

Order in Sidewalks.
The commission, at its meeting, ordered construction of sidewalks on petition as follows: East side Twelfth street, Avenue A to Avenue B, west side Twelfth street, Avenue B to Avenue C; south side Avenue B, Eleventh to Twelfth streets, south side Rosser street, Washington avenue to East Park street.

A bill of P. O. Hellstrom for \$300 for services in seeking lower electric rates in the Hughes Electric company case before the railroad commission was not allowed.

OIL VALUED AT
\$874,700 BURNS

Casper, Wyo., June 21.—Fire started by a bolt of lightning striking an oil tank was extinguished after causing a loss estimated at \$874,700.

HOME BREW IS
BAD LOSER IN
STATE ASSEMBLY

Madison, Wis., June 21.—Home brew went down to defeat in the state senate again today when the upper house by a 17 to 8 vote refused to concur in the assembly amendment restoring Governor Blaine's prohibition enforcement bill to its original form. The floor leaders of the governor led the fight against his bill.

The whole controversy now goes to conference of both houses with the senate determined in its stand against acceptance of the bill as Governor Blaine demanded.

WEATHER REPORT.
For twenty four hours ending at noon June 21
Temperature at 7 A. M. 65
Highest yesterday 80
Lowest yesterday 60
Lowest last night 52
Precipitation trace
Highest wind velocity 10 W
Forecast.
From North Dakota: Fair from Tue and Wednesday, not much change in temperature.

FARGO MURDER
HEARING GOES
OVER A WEEKStates Attorney Moves For Con-
tinuance of Case of Wm.
Gummer

COURTROOM IS CROWDED

Crowd Shows Reluctance to
Leave When Case is
Continued

Fargo, June 21.—The preliminary hearing of William Gummer, charged with the murder of Marie Wick, 18, Grygle, Minn., girl here, June 7, was today continued until 10 A. M. June 28, on motion of William Green, state's attorney of Cass county.

Defense attorneys did not oppose the motion.

More than 250 spectators were crowded into the court room where the hearing was held. Gummer, the 22-year-old night clerk of the hotel, where Miss Wick was slain, was very pale, but showed no signs of nervousness. His parents, who attended the hearings, showed effects of the strain they have been bearing.

Today's hearing was before a justice of the peace and the next session will be of like nature.

The crowd gathered at the court house today showed reluctance to leave after the proceedings were over. The state continued the case because it did not have all of its evidence ready to present, it is said.

A. F. L. IS ASKED
TO AID STATE
SALE OF BONDSRequest Referred to Executive
Council Without Recom-
mendation

HIT "GAMBLING IN GRAIN"

Denver, June 21.—Abolition of "gambling in grain futures on the Chicago Board of Trade," establishment of co-operative producers and consumers organizations and government regulation of corporations and monopolies were urged today by the convention of the American Federation of Labor as a means to combat the high cost of living.

A resolution presented by the Fargo, N. D., Trades and Labor Assembly asking labor endorsement of the Nonpartisan League program and assistance in selling bonds of the state bank of North Dakota was referred to the executive council without recommendation.

The work of the federal trade commission was urged to be provided for investigation of all industries and publication of statistics showing the cost of production and marketing of all staple commodities.

In urging the abolition of "gambling in futures" and "unnecessary reconsignation and brokerage operations," the resolutions said "there are too many overtures between the producers and consumers which ultimately increase the cost of living."

MARINE'S CASE
TO BE PROBED

Washington, June 21.—Congressional investigation of the dismissal from the marine corps of Capt. Edmund Chamblain, of San Antonio, Tex., for his alleged false claim in 1918 of having shot down a number of German airplanes on the western battle front was recommended by the senate naval committee.

JAMESTOWN MEN
ON TRADE TOUR

Jamestown, N. D., June 21.—Forty-two cars, containing 200 Jamestown boosters, left this morning on their second annual booster trip through Stutsman county. They will be on the road for two days.

HOME BREW IS
BAD LOSER IN

SPORTS

BISMARCK COPS VALLEY SERIES BY SUNDAY'S WIN

Makes it Three Out of Four With Team From the East

SOME LONG HITTING

Valley City remained in Bismarck for Sunday's game because of the inability of the Dickinson team to get here, due to interrupted railroad service, and the series of four games ended with Bismarck winner of three. Valley City got her win on Saturday, 6 to 1, and Bismarck came back and took Sunday's game, 8 to 2. Valley City played at Mandan Sunday evening and won, 5 to 4.

The local club showed the best form of the season in the Valley City series. Although nearly every player on the infield has had fingers from handling the ground balls which travel over the hard diamond at a fearful clip the Bismarck club played consistently throughout. Joe Collins tried some changes in his batting order, with successful result.

Al Anderson pitched Saturday's game for Bismarck, after being absent from the game for sometime after a dental operation. After hitting the first two men he overcame his inclination to wildness, which developed recently, and pitched a steady game which should have netted a much lower score.

Ellis was the local hitting star Saturday, getting two hits out of three times up, and walking the fourth time. He also caught a nice game. Mel Anderson played first, Andler being in the outfield because of injured fingers, and Anderson handled 11 chances in fine style. Harper, also was back in the game, playing with a broken finger, but as if it didn't make any difference. McGovern, of Mandan, was on second for Bismarck, and Coble played errorless ball.

Angell pitched a nice game for Valley City, his slow ones being hard to catch. Schanlaub, Valley City first baseman, got three hits in his first three trips to the plate, one a three-bagger, and displayed some flashing fielding ability. Wyatt was applauded by fans for a wonderful running catch in left, and he contributed a long three-bagger to Valley City's total of hits. Kaplin made some nice catches in right.

Sunday's game was won through effective pitching by Taylor in his second win against Valley City, through Valley City errors and some timely hits. Goldsberry, Valley City southpaw, pitched good ball, and many Bismarck hits that counted came after errors had put men on bases and the side should have been retired. Gilbert and Wyatt were the Valley hitters Sunday, each getting two hits. Only three other men got hits off Taylor. Joe Collins was hitting hard for Bismarck, getting two out of three times up. Bill Andler signalled his return to first by delivering a nice hit in a pinch in the third inning, bringing in Bismarck's first two scores.

Sterling, also known as Uman, who plays with Valley City, the first part of last year and Bismarck the latter part, is expected to join the Valley City team this week, having finished his eastern university course. It is understood he had a tryout with the Philadelphia Athletics but was not kept or farmed because of the player limit.

VALLEY TAKES EXCITING GAME FROM MANDAN

Teams Play Baseball Sunday Afternoon—Wilton Also Victor

A great crowd of Mandan fans saw an exciting baseball game Sunday evening when Valley City, after playing in Bismarck, played Mandan and took the game, 5 to 4. With the game 5 to 3 in favor of Valley City, Mandan staged a rally in the ninth inning, put one score across and had men on bases but the last man went out. Dorrer pitched for Mandan and hurled a nice game, as well as fielding his position well. Mandan hit Brusek hard and Angell went to his relief in the eighth inning.

Valley City plays Mandan today and tomorrow in evening games, to start about 6:20 p. m.

The Mandan team bit off a big chunk Sunday. The team went to Wilton and played there at 2 o'clock, Wilton time, returning to Mandan just in time to play the Valley City game. It was a hard trip. Flaherty pitched splendid ball for Wilton and Wilton took the game, 9 to 2. Love pitched for Mandan, Roberts and Schafer, of Mandan, got three-baggers.

PRISON TEAM BEATS HAZELTON

The prison baseball team defeated Hazelton, 7 to 5, Sunday afternoon. Tom McGrill, who has played in the outfield for the prison team, stepped into the shoes of Hopkins, former pen pitcher, and is developing rapidly. The prison team will play Sterling here next Sunday.

SPORT BRIEFS

Clark pitched a no-hit, no-run game for the Columbus American Association team against Indianapolis on Saturday. In the first inning he walked three men but retired the side. In the eighth two walks and an error filled the bags but he pitched himself out of the hole.

Urban Faber pitched his 14th win of the season for Chicago White Sox against the New York Yankees, 4 to 3.

Boston cleaned up the series off Detroit Saturday. It was Detroit's eighth straight defeat.

Boston Braves stopped the St. Louis Cardinals by getting 13 runs and 23 hits Saturday.

Louisville defeated Toledo for the 14th time Saturday. Thirty hits were made in the game, Louisville getting 18 of them.

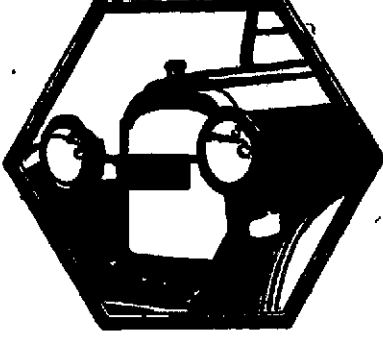

Rube Schauer lost a game Saturday pitching for Minneapolis. Minneapolis used four pitchers and Kansas City three, the latter team winning 11 to 10.

Fargo Athletics beat the Calgary Black Sox, 7 to 2, Saturday. The Black Sox won Friday.

FROM COLLEGEVILLE

George and Francis Brown have returned from Collegeville, where they have been attending St. John's College.

"They Stop Here"

Sleeve Valve Motor Improves With Use

50,000 Americans have stopped looking for motor cars! They have found theirs! The motor of lifetime service—outlives any chassis built! The motor that has no valves to grind—no tappets, no crashing noise, no cams, no springs—nothing but smooth service that gets better with use. The Willys-Knight motor—monarch of them all—which in the fine Willys-Knight car averages 20 miles per gallon of gasoline—now reduced \$300 and increasing its friends by the thousand every week.

WILLYS-KNIGHT

WESTERN STAR BREAKS FIVE TRACK RECORDS

Pasadena, Calif., June 20.—Charles W. Paddock, University of Southern California sprinter, Saturday lowered the records for 90, 110, 150 and 200 yards at tryouts for the national A. U. championships, according to official timing, but injured a muscle in his right leg just before reaching last mark.

Dr. A. M. Weston of Los Angeles, who attended the runner said healing would take about ten days, but he feared the injury might have the effect of slowing Paddock up for the A. U. championships, to be run here July 2, 4 and 6. Paddock's time for the various marks Saturday was as follows: 90 yards, 8 4-5 seconds; 110 yards 10 1-2 seconds; 150 yards, 12 2-5 seconds; 200 yards, 14 1-5 seconds; 200

ILLINOIS WINS BIG MEET ON FIELD EVENTS

Chicago, June 20.—An evenly balanced team which scored points in ten of fifteen events without capturing a single first place brought national honors to the University of Illinois by carrying off first place in the national collegiate athletic association meet at Stagg field, Saturday, a contest open only to champion athletes and entered by more than three score of the country's colleges and universities.

The Illini, through second, third, fourth and fifth place points, gathered a total of 201-4. Notre Dame was close behind with 163-4. Iowa took

SARLES VICTOR IN UNIONTOWN SPEEDWAY RACE

Uniontown, Pa., June 20.—Roscoe Sarles won the sixth annual Universal trophy race, 225 miles, in 2:18:20 at an average speed of 97.75 miles per hour. Eddie Hearne was second in 2:18:57, and Eddie Miller third, in 2:20:52. Sarles stopped at the pits only once during the race and Hearne covered the entire distance without pulling in for repairs.

The car driven by J. Ellingboe, Crookston, Minn., pilot, turned over on the 129th lap and both driver and his mechanic were painfully injured.

MASONS PLAN BIG MEETING AT PEMBINA

To Commemorate Beginning of Masonry in This Section of Nation

Masons of the state will be represented generally at the international gathering to be held June 21, in Pembina, N. D., to commemorate the beginning of Ancient and Accepted Free Masonry in this section of the north-west and in western Canada.

All of the Grand Lodge officers and

committeemen, residing in Fargo, including W. L. Stockwell, grand secretary; R. L. Miller, deputy grand secretary; Walter H. Murfin, Melvin S. Mayo, E. George Guthrie, George Johnson, and the masters and wardens of Eastgate and Shiloh lodges, will probably be in attendance. Other interested Masons will probably go.

The first meeting of the lodge was held in January, 1894, in a room on the second floor of a building located just west of the steamboat landing on the Red river. The building was the quartermaster's headquarters, and after the battalion was withdrawn, it became Potter's hotel.

Charter Revoked.

When Hatch's battalion was withdrawn, the lodge was removed to Fort Garry and the dispensation was renewed. The first meeting at Fort Garry was in a room over the trading house of A. G. Bannatyne, November 8, 1884. The dispensation was renewed from year to year. A charter was granted, but never was delivered. Later the charter was revoked and the lodge ceased to exist.

When the Canadian Grand Lodge granted a charter to the Ancient Land Mark Lodge of Winnipeg, most of the men who were members of the Northern Light Lodge at Fort Garry became charter members of the new lodge.

Bronze Tablet.

A bronze tablet upon the granite stone, which is to be unveiled upon the site of the old quartermaster's building of Hatch's battalion bears this inscription:

"This tablet and marker have been placed here by the Grand Lodge A. F. and A. M. of North Dakota, A. D. 1921, A. L. 5821, to designate forever this historic Masonic spot."

The Grand Lodges of Minnesota and North Dakota and of Manitoba will send their officers to Pembina. These officers will review a parade of all constituent lodges, after which the dedicatory and unveiling ceremonies will be held.

Speakers.

The chief speakers will be George L. Schoonover of Anamosa, Iowa, past grand master of Iowa and chairman of the Masonic Service association of the United States; Grand Master Andrew L. Randall of Texas, and R. E. Wenzell of Grand Forks.

After Hatch's battalion was withdrawn from Pembina and the Northern Light Lodge was removed to Fort Garry, there was no Masonic lodge in North Dakota for some years. The next one was in Bismarck. There was no lodge in Pembina again until 1875, when a charter was granted to Pembina Lodge No. 10. It was the 10th lodge in Dakota territory.

RETURNS FROM SCHOOL

George Register, a student at James town College has returned to spend his vacation here.

TRIBUNE WANTS—FOR RESULTS

FAMOUS BLACK SOX TO PLAY BALL HERE

The Calgary Black Sox, champion semi-pro team of Canada, will play ball in Bismarck next Thursday and Friday, June 23 and 24. That team has played Fargo, Minot, Valley City and other fast teams in North Dakota and has more than an even number of victories. The games with the Black Sox, who are said to have some comedians which make the ball game a vaudeville show as well as a fine exhibition of the national pastime, should be the fastest thus far this season.

The organization has been in existence a number of years, and after winning the semi-pro championship of Canada, is touring the states to display their skill.

TRACTOR SHOW AT FARGO TO BE NOTABLE EVENT

Many States Interested in Spectacular Contests in Horse and Power Tillage.

FARMERS OFFERED CASH

Trucks to Form Important Part of Show—Road Graders at Work—All Demonstrations and Exhibits Are Free.

Fargo, N. D.—When the show and demonstration committee of the National Implement and Vehicle Association issued word from its headquarters at Chicago that a demonstration of farm tractors and trucks would be given at Fargo this year, it set on foot the most notable occasion, from a farmer's viewpoint, that will take place this year in the Northwest. By reason of the fact that no similarly large undertaking has ever been held in this section, this meeting, which is set for June 28 to 30, becomes one that will be of interest to the people of Minnesota, South Dakota, and Montana, as well as those of our own state. The event is in no sense a commercial proposition, and all demonstrations and exhibits are free.

Other Shows Draw Great Crowds. Up to the present time the only tractor demonstrations that have been staged in this section were two, calculated to cover only a local, or "district" scope, which were held respectively at Minot and at Aberdeen two or three years ago. These gatherings, notwithstanding their semi-local character, are said to have drawn crowds of from 80,000 to 40,000 people each—not less than 11,000 autos having been

on-team equipment of the pioneers, a prize of \$200.00 has been offered by the Fargo Commercial club.

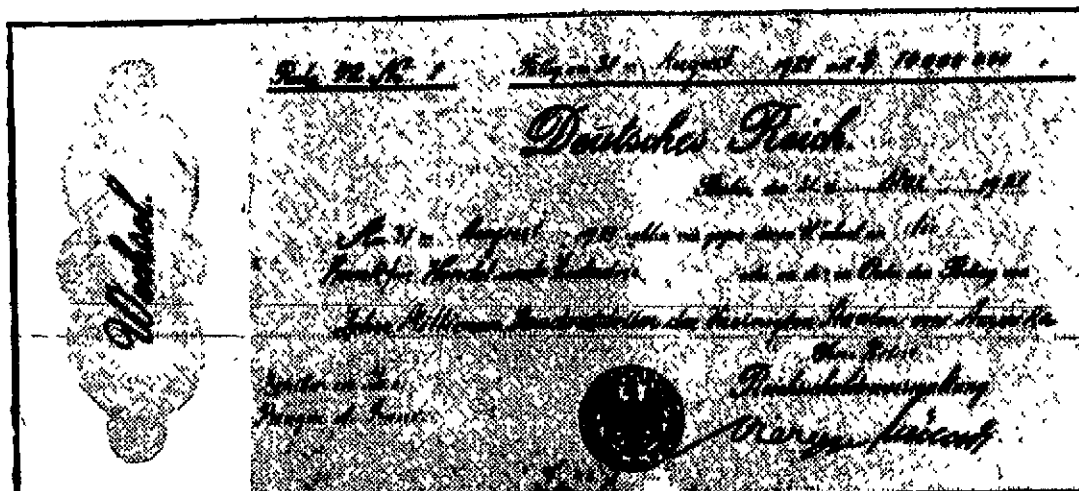

Teams entered, it should be said, will in every case be properly cared for on the ground, stables provided, and each entry will be required to plow, prepare and seed a 10-acre plot. Prospective entrants should communicate at once with E. E. Whaley, Manager Tractor Demonstration, Fargo.

First Year Trucks Shown. An outstanding feature of this demonstration will be the inclusion of farm and other motor trucks, in addition to the line of agricultural tractors usually comprising almost the entire display in exhibitions of this kind. Besides these, also, the plans being perfected contemplate the display of much other tractor and belt-driven farm machinery. Notable, too, will be the display of road graders in actual operation. For purposes of general machinery exhibits, a huge tent is being provided; while an adjoining plot is expected to be obtained, upon which manufacturers may exhibit heavy farm implements of every kind.

No Discriminations Practiced. Among tractor exhibits, it is particularly provided that no discrimination will be shown against machines produced by manufacturers not members of the association under which the exhibition is being held. That this association comprises upward of 95 per cent of all the manufacturers in this line in the country assures prospective visitors that an exceptionally representative showing of these implements will be made. The educational value of such an exhibition, to old and young, regardless of occupation, can hardly be too strongly understood.

Commercial Club Very Active. Appreciating fully the heavy demand that will be made upon the city for accommodations, due to this remarkable event, the local commercial club, under direction of Secretary W. P. Chestnut, is bending every effort to secure ample rooming facilities for those who are here. Persons requiring rooms during these dates—June 28 to 30—should send in requests for reservations at once. Great care will be exercised to see that no exorbitant rates are charged. Private rooming places will be provided wherever they can be had, to augment facilities avail-

GERMANY'S "DOLLAR CHECK" FOR FIRST PAYMENT

This is Germany's first payment of its war debt to France. It is for "Ten Million Dollars of the Standard

of the United States." It is payable in Paris Aug. 31 and has the words "without protest" written on it.

SWIMMING POOL PROGRESS MADE

Volunteer Workers Pleased For Aid on Project

People may now get a good conception of the size of the new swimming pool being built in Custer park. The forms are on three sides of the pool, and concrete will be poured tomorrow. The pool will be the largest outdoor pool in the state, of sufficient size to accommodate the kiddies in the city for years to come.

John L. Larson, who is supervising the work, is satisfied with the progress being made. An easy outlet to a manhole was found, through which the pool can be drained. It was necessary to dig only 15 feet to reach it. A big water pipe is now being laid through which the pool will be fed.

Since an appeal for voluntary labor was issued last Saturday there has been a large number of volunteer workers, men and young men. The volunteers are given by many carpenters, who are especially praised by the supervisor. The need now is for common labor. Mr. Larson said, and anyone who will push a wheelbarrow or wield a shovel as his contribution to the swimming pool will be welcomed. An average of three or four voluntary workers a day has been recorded.

3-YEAR-OLD BOY IS INJURED IN AUTO ACCIDENT

Bobby Everts, 3-year-old son of Frank Everts, was run over last evening by an automobile driven by Miss Helen Dahl, daughter of C. M. Dahl. Miss Dahl was driving slowly at the time, it is said, otherwise the injuries might have been more serious. Mrs. O. W. Roberts, who was near the scene of the accident, picked up the little boy and carried him to St. Alexius hospital. He was quite badly cut about the head and legs, but his injuries are said not to be serious.

LEGION SEEKS TO LOCATE ALL SOLDIER GRAVES

Indianapolis, Ind., June 21.—American Legion posts throughout the world were called on by a bulletin issued Saturday from national headquarters here to determine the exact grave of every American soldier dead from Lexington to the Argonne as the first step in assuming the heritage of forever keeping green their memory. "The order will result," the bulletin added, "in the reclamation of abandoned burial grounds and the placing of suitable headstones over graves long since forgotten. "Each post and unit will obtain from

local organizations in their communities springing from the Revolution, the War of 1812, the Mexican war, the Civil war, the Indian campaigns, the Spanish war and the Philippine Insurrection, lists and charts accurately showing spots where America's defenders are sleeping. These documents will be used by Legion posts in the future to make sure that the soldiers graves are properly marked and cared for during the year and that they are decorated on Memorial Day."

THE ROMANCE OF WORDS

"CABARET." BROUGHT into prominence of late years because of the large number of hotels and restaurants which have advertised "dancing cabarets" or "jazz cabarets" or have used the term as indicative of a place where one can secure food and amusement at the same time "cabaret" has come to be regarded as a new addition to the English language—a word which, from its form and pronunciation, is evidently French.

As a matter of fact the term was originally of Italian origin, but it is by no means modern, having been widely used in England during the sixteenth century as a synonym for "tavern." There was nothing musical about the cabarets of this period and the only amusement they afforded was that which the travelers furnished. While the word was used by Brannhall in one of his works published in 1685, it passed out of the language soon after that and did not return again until about the middle of the eighteenth century. At this time, however, its stay was short and its popularity limited. Not until the dancing craze struck the world a few years ago was it resurrected in its present sense.

It has changed its meaning so much of late that, if a hotel advertised a "cabaret" and did not provide at least an orchestra, it would be accused of fraud—while as a matter of several centuries of custom it would be entirely within its rights. (Copyright.)

Last Night's Dreams

—What They Mean

DID YOU DREAM OF YOUR RELATIONS?

NOSTRADAMUS, Albertus Magnus, Mother Shipton and wise gypsies seem to agree that it is a good omen to meet one's uncle in a dream and

George W. Perkins, Jr., Like Young Roosevelt, Follows Father's Footsteps

ANOTHER son of a prominent American has entered the public service. This time it is George W. Perkins, Jr., son of the late George W. Perkins, who was a very close ally of Theodore Roosevelt in most of his political campaigns and who was largely instrumental in organizing the United States Steel Corporation and the International Harvester Company. It was a coincidence that sons of these close friends should both decide to enter Government service. Theodore Roosevelt, Jr., in at the present time Assistant Secretary of the Navy, while young Perkins, who took an active part in the recent Presidential Campaign, has just been named as Executive Secretary to Postmaster General Hays, and is acting in this capacity at Washington now.

Prominent at Princeton Perkins, who is just twenty-six years of age, graduated from Princeton University in 1917. While at college he was active in undergraduate affairs with the result that in his senior year he was elected Chairman of the Senior Council, which is considered one of the highest honors obtainable at Princeton. In addition, he was Manager of the varsity crew, an honor obtained in competition; President of the college Y. M. C. A., as well as a member of the University Debating Committee.

In his senior year he resigned from the prominent college club, to which he had been elected, and led the upper classmen, who supported Richard Cleveland, son of Grover Cleveland, in his revolt against the club system.

In his summer vacations, while attending Princeton, young Perkins obtained work as a reporter on a New York morning daily and also spent one summer in making investigations for Mayor Mitchell's food supply committee.

George W. Perkins, Jr. was transferred to the First Division shortly before the Armistice, and was shipped to Germany with the First Division. During the winter of 1920 he acted as a member and Executive Secretary of the Princeton Endowment Fund Committee, which raised over eight million dollars for the University. Since his return from Europe, he has been actively interested in war and civic activities in New York, and has been made a member of the Executive Committee of the Boy Scouts of America and of the International Committee of the Y. M. C. A. He is on the Executive Committee of the Young Republican Club and Honorary Vice-President of the Honest Ballot Association.

CONGRESS IS URGED TO ACT

Five Provisions Requested in Aid of Disabled Veterans, Amending Vocational Training Law.

Amendment of the law under which disabled veterans of the World war are given vocational training, so as to provide five things demanded by the last convention of the American Legion, at Cleveland was urged in congress by Legion representatives.

The five provisions requested by the Legion are:

1. Vocational training for American citizens who served with the allied armies, who were disabled and who are not entitled to training under the present law.

2. Training with pay for all disabled veterans with 10 per cent or more disability, instead of training with pay for some and training without pay for others, as now provided.

3. Vocational training for the widows and orphans of all men who died in the service.

4. The right of the federal board for vocational education to give all disabled men in training such medical care and treatment as is necessary to keep them at their courses.

5. That all disabled men in training shall receive \$100 a month from the government while in training and those with dependents \$120 a month, instead of different sums based upon the cost of living in different localities as now provided.

A special plea was made by John Thomas Taylor of the national legislative committee of the Legion for vocational training for the widows and orphans of the American dead of the World war. He said that undoubtedly the 50,000 American children whose fathers slept in Flanders fields were entitled to the same educational advantages that they would have had, were their fathers alive and able to provide for them. The widows of the men who died in France, he added, were likewise entitled, the bread-winning member of the family having been killed in defense of the country, to be taught some kind of work of trade.

EDITOR WAS ON FIRING LINE

Commander of Missouri Department of Legion One of Many Newspapers Men Who Heard Call.

John Francis Williams, commander of the Missouri department of the Legion, is one of thousands of newspaper men who left their typewriters when the war broke out. Enlisting as a private in the Missouri National Guard, Mr. Williams rose to the rank of first lieutenant.

In the A. E. F. he served as a machine gun officer with the Thirty-fifth division in the Vosges mountains and in the Argonne-Meuse drive. After the armistice, he served as instructor in the A. E. F. university at Beaune and later assisted in publicity in connection with the interallied games.

Mr. Williams, who is a member of Robert S. Thurman post 13, Joplin, Mo., served as post commander and state master-at-arms previously to his election as department head. He is editor of the Joplin News Herald.

ORGANIZATION IS HIS TASK

Spokane (Wash.) Man Will Supervise Work of Enrolling Every Former Service Buddy.

Edward H. Prell of Spokane, Wash., was recently appointed director of the organization division of the American Legion. He succeeds Russell G. Crevelton, who is now assistant national adjutant.

Mr. Prell served overseas with the One Hundred and Forty-sixth field artillery and participated in two major offensives of the World war. After his discharge from the army, Mr. Prell was active in the early organization of the Legion in his state. The supervision and direction of the Legion's 1921 campaign to enroll every eligible former service man in its ranks will be in the hands of the new director.

TRIBUNE WANTS—FOR RESULTS

PICRIC ACID DISTRIBUTION TO FARMERS

Washington, June 21.—More than 12,000,000 pounds of picric acid, one of the highest known explosives, accumulated for war purposes and made useless to the War Department by the armistice, will be distributed to farmers for agricultural purposes.

When the war ended the army had on hand this immense stock of picric acid and in addition more than 26,000,000 pounds of T. N. T. The latter was distributed to various government agencies for use in railroad construction in Alaska, public roads in the national parks and various projects on Indian reservations. None of the T. N. T. was distributed to individuals and thus far not a single accident has marked the use or transportation of the millions of pounds of the high explosive, according to officials of the Bureau of Mines.

The question of what to do with the 12,000,000 pounds of picric acid puzzled government officers for some time and the War Department had almost decided to tow the explosive out to sea and dump it overboard in the interests of the public safety when it was decided to institute a series of experiments in an effort to find some safe commercial use for it. The experiments were conducted by the Bureau of Mines and disclosed many ways in which picric acid could be used safely and profitably on farms, such as in blasting out stumps and rocks and breaking up land. It was accordingly decided to distribute the explosive, practically free of charge, to farmers.

Picric acid, a highly crystalline powder having a lemon yellow color is 18 per cent stronger than 40 per cent straight nitro-glycerin dynamite, according to the Bureau of Mines. It should never be used in bulk, officials say, and its use should be restricted to re-dipped paraffined paper cartridges.

The 12,000,000 surplus stock, located at Sports, Wis., and Winsale, N. M., will be distributed to farmers through the Bureau of Public Roads of the Department of Agriculture. The only cost to the farmer, it is announced, will be freight charges and a charge of six cents a pound for placing the powder in the necessary cartridges. It will be ready for distribution about July 1.

GETTING ALONG GOOD.

Women are as great sufferers from kidney and bladder ailments as men. Foley Kidney Pills help rid the blood stream of impurities that cause rheumatic pains, backache, swollen joints and stiff, painful muscles. Mrs. Carey, Box 91, R. F. D. No. 2, Middletown, N. Y., writes: "I had kidney trouble ever since I was a little girl, but I am getting along good since I have taken Foley Kidney Pills." They act immediately and help restore the kidneys to healthful activity.

TRIBUNE WANTS—FOR RESULTS

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Blomack's residents recommend Doan's Kidney Pills. Ask your neighbor! Read this Blomack statement:

Mrs. J. O. Varney, 408 2nd St. N. says: "Some time ago I used Doan's Kidney Pills for kidney trouble. I was all run down and feeling dull and miserable. My back ached severely and I was unable to sleep at night. The action of my kidneys was irregular, too. I got Doan's Kidney Pills from Lenhart's Drug Store and they soon brought relief. I recommend Doan's Kidney Pills in return for the benefit they gave me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Varney had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

THE STATE'S OLDEST NEWSPAPER
(Established 1878)

YOU ATE IT
You'd probably scoff at your grocer if he told you that you eat more salt than sugar.
But along comes the American Sugar Refining Company with the statement that the average American consumes 108 pounds of sugar and 130 pounds of salt a year.
World had salt before it had sugar. "Salary" comes from Latin word for salt. Wages of Roman soldiers were called "salt money." That's how they got the expression, "Not worth his salt."

POLAR OIL
Edmonton, Canada, is packed with fortune seekers. When the ice goes out in the Far North, late this month, they'll stampede into the new oil fields.
If any one in Bismarck is thinking of joining them, remember this: No railroads run to the polar oil fields. To build oil pipe-lines would cost hundreds of millions. How are they going to get their oil to market?
Transportation, from where things are plentiful to where they are needed, is the greatest problem of business.

ASK 'EM
Sing Sing prisoner, fishing through the bars, hooks a big carp. Guards throw the prison gates open to help him catch it. Of course!
They wouldn't be human if they didn't. Here's a situation which justifies the poet who said a touch of nature makes the whole world kin. Rich man, poor man, beggar, thief—all such distinctions are forgotten when a man has hooked a fish!
Nor could any prisoner think of running away while he had a big fish on his line. And after landing a big fish he couldn't abandon it.

ISN'T IT ODD?
A hundred years hence, the student of history, studying the tendencies of our times in the old files of newspapers, will be interested in a recent item under this head-line:
NO MORE AUTOS FOR STUDENTS
The item reported the action of the authorities of a western university who had ordered students to send their automobiles home.
The historian, commenting upon this state of affairs, probably will write:
"In the year 1921 indulgence in luxury had come to such a pass as to interfere seriously with the processes of higher education. In one university it became necessary to prohibit the use among students of motor cars. The America that had pointed with pride to its self-educated men had passed."
Still it is not as bad as that. For every joy-riding student there are a dozen paddling their own canoes.

BRIDES
June is the star month for weddings and at the bottom of their heart all women prefer it.
That's because ancient astrologers proclaimed June as the luckiest month. The tradition has been handed down through 100 generations.
If you attend a wedding this month, either as a guest or a fortunate participant, you stand in the presence of the oldest ceremony in existence, the custom which graduated men from barbarism and started civilization.
For men and women had marriage ceremonies before they had work, barter, weapons, wars, laws or any organized society.

In the lowest forms of life, marriage is a ceremony.
The queen bee, prepared for marriage, soars from her hive. Suitors, following as she mounts higher and higher, one by one grow exhausted and fall dead. Finally only one is left, by survival of the fittest, and becomes the queen's mate.
The marriage of a girl elephant is nearly always preceded by a battle between suitors, the one with most strength and best tusks winning.
Even spiders have their ceremony after the wedding—when ma eats pa.
The marriage of men and women has passed through three separate and very interesting forms, revealing man's progress.
First was "marriage by capture."
The cave man and his savage descendants car-

ried off their brides by force. Prehistoric man was a good provider and the notion that he did his wooing with a club probably is wrong, says Dr. Elmer S. Riggs, noted paleontologist.
But there was rough stuff in ancient elopements. It came from the bride's irate father. To beat off father-in-law and other pursuers the bridegroom carried with him a strong-armed pal.
That strong-armed pal is symbolized in "the best man" at modern weddings.
Old shoes and rice, thrown after a departing married couple, represent traditionally the wrath of the pursuers who lost out in the race.
The honeymoon originally was the period the groom kept his wife in hiding until her pa's wrath calmed down.

Next came "marriage by purchase," the groom appeasing his intended father-in-law with gift-bribes. Like the American Indian, who paid for his wife with buffaloes or ponies.
The third step in the evolution of mating was "marriage by consent."
It was not until about the year 900 that any bridge got the right to refuse suitors or to select the one she loved.
The wedding ring symbolizes the binding fetter. It is universally used, African brides wearing it in their nose.
"Wedding" comes from "wed," old Anglo-Saxon word coined to denote a security or pledge of marriage.

Customs change. Traditions run their course, die out and the day may come when the best man, the wedding ring and the old shoes and rice will be extinct and forgotten.

COOKING
Ohio restaurant keepers, meeting at Toledo, propose that a school for restaurant cooks be established by the National Restaurant Association.
It is needed.
A restaurant too often is a place where bad cooking is entirely surrounded by good. For cooking in millions of homes in this country probably cannot be excelled anywhere in the world.

SQUARED UP
So King Peter of Serbia is dying. As a king he made a poor start, having been elevated to the throne by the men who murdered his predecessor, Alexander. But he restored himself to the good opinion of history by sharing with his gallant little army all the hardships of its heroic retreat when his country was overrun by Austrians.
He lived to see all scores evened up, and all his powerful enemies humbled in the dust, and the rapacity of Austria avenged. Not so bad for a minor league king!

WRONG
Pennsylvania State College graduates a young woman industrial engineer, Miss Frances Barbara Hosfeld.
She rolled up her sleeves and went at forging, foundry and steam engine work on equal terms with young men students. Young women, this year, receive degrees from every school in the Pennsylvania State College except the School of Mines.
Not long ago women were barred from such opportunities and, even a higher classical education for women was thought unsuitable. One forgets the arguments against it. Whatever the arguments may have been, they were wrong, and not worth remembering.

WISE WILLIAM
The June wedding epidemic is always accompanied by much advice for brides and grooms.
The problem of how to be happily married is as old as the institution of marriage, and has exercised the best minds in all ages.
William Penn, one of the wisest of men, wrote the best advice on the subject, 250 years ago. He said:
"Never marry but for love; but see that thou lovest what is lovely.
"Between man and wife nothing ought to rule but love.
"As love ought to bring them together, so it is the best way to keep them together."

SPOILED
Imagine the thrill that came to Wesley Syco of West Virginia the other day when, at 47, he took his first train ride, his first street car ride and saw his first circus. We sort of envy Wesley Syco.
Most of us have been living in wonderland so long, we get no thrills out of it. We lift to our lips a small instrument and speak to a friend miles away. We press a button and flood our homes with light. We journey through the skies or under the seas. But, unmoved, we take all this magic for granted. Like spoiled children with too many toys!
Happy Wesley Syco!
But marriage goes on forever. It is one of the three greatest events of your life, and probably of first importance because usually you're unconscious of the other two, birth and death.
"Fifi" Stillman says her husband is worse than a Bolshevik. Which is the worst thing yet said of Bolshevism

ADVENTURES OF THE TWINS
By Olive Barton Roberts

The war-hog who was president looked especially ferocious.
When Flippety-Flap shuffled into the place where the "Council of Creatures" was having a meeting followed by the twins in their Magic Shoes, everybody turned to look. It was plain to see that they were not only amazed at the sight of the visitors, but curious and suspicious as well. Even the fact that the mongoose ushered them in and cautiously peeped out through the doorway after him to see if they had been observed, did not seem to make the members of the council any more friendly.
Had you been there, or had I been there, my dears, I'm sure that we should have—well, shivered at least. The war-hog, who was president, looked especially ferocious. But the twins were not in the least afraid.
"Well, what do you want?" he asked gruffly.
"We don't want anything," replied Flippety-Flap, emphatically bobbing his top-lock. Nancy and Nick chimed in hastily, "No, v don't indeed!"
"Then what did you come for?" went on the war-hog.
"We didn't come for anything," Mr. Wart-Hog began to look pleasant, and the antelope and gazelle looked relieved at this reply.
"And didn't that wicked old creature, Tag Tiger, send you to spy on us?" asked Mr. Wart-Hog.
Flippety-Flap shook his head. "No indeed, he didn't. We are looking for him."
"Looking for him!" shrieked every single creature at once as though they had practiced it.
"We— we don't understand you, sir," said the antelope timidly.
It was Nick who explained. "Why," said he, "we want to take him home with us, so he can be in the circus."
"Then," suggested the war-hog, "as you wish to have him and we wish to be rid of him, let's have a good talk at once. We may think of something." (To Be Continued.)
(Copyright 1921, by Newspaper Enterprise.)

SATURDAY EVENING LETTER
(By Chief Justice Robinson.)
June 21, 1921.—The initiative, the referendum and the recall—these mark North Dakota a progressive state. By initiative procedure the people can make their own laws and repeal all bad laws. By the recall they can discharge or "let out" any public servant. But the recall is very dangerous to any private corporation and it is equally ruinous to the state. In ruinous to any private corporation and it is equally ruinous to the state. In public as in private service, it is vain to look for efficiency without an efficient recall. When a public or private servant may snap his fingers, go and come as he pleases, do his work or leave it undone, you may be sure there will be no efficient service. The initiative procedure is the cure-all. By it we can easily undo all the bad laws of the last six years. We can put a stop to the unjust exactions of the common carriers, reduce the ruinous taxes, break every yoke and let the oppressed go free. The first step is to draft with the greatest care and cause to be printed some twenty or more good measures with a petition by not less than ten thousand voters for the submission of each measure to a vote of the electors. Thus we may cut down the ruinous taxes of the past three years and cut off all the penalties and costs. We may undo all the newfangled tax laws and install the simple and inexpensive and constitutional methods of assessment which prevailed during the first twenty years of statehood, when a quarter section of land was taxed at not over \$40. We may pension the Tax Commission and abolish his office with all its expensive and complicated attachments and tax supervisors. In every state the Tax Commissioner system has increased the tax burdens.
When Governor Burke was in office he gave the writer a commission to represent the state at a big tax convention held at Louisville, Kentucky. I went and observed that nearly all who went there were Tax Commissioners intent on boosting the assessments and taxes. I was the only person who had a word to say in favor of economy and tax reduction. I was the only person to offer and advocate a resolution which would have prevented the World War if passed by the convention and approved by Congress. Give unto Caesar that which is Caesar's. Everyone is hoping and praying for a good crop which generally means low prices. But even with a good crop and a fair price, what is there left after paying the taxes, the extortionate freight, the interest, the help and other expenses? Figure it out and strike a balance.
In defiance of the laws of the state the railway carriers have recently added to the wartime passenger rates twenty per cent and to the wartime freight rates thirty-five per cent. It is vain to look for any redress to the next legislative assembly. The railway lawyers know too well how to fix them. But with the initiative, the people have in their own hands a remedy. At present the state is not without a fair and adequate rate law, but it is disregarded because its penalties avail nothing. In Arkansas they have a rate law which has been sustained by the U. S. supreme court. (251 U. S.) It gives a god penalty and a right of action to everyone aggrieved by an excessive rate charge. The carriers observe the law because they do not care to have numerous suits, though

EVERETT TRUE BY CONDO

SAY, MY FRIEND, WHILE THE CURTAIN IS DOWN, I WANT TO ASK YOU IF YOU BELIEVE THAT AN OSTRICH CAN HIDE ITSELF BY SHOVING ITS HEAD INTO THE SAND.
NO, I DON'T.
WELL, THEN, WHY TRY TO KID YOURSELF THAT YOU'RE NOT BALD BY COMBING FOUR OR FIVE LONG HAIRS OVER THE TOP OF YOUR DOME?

CUTICURA HEALS ECZEMA ON ARMS
Hands and Hip. Itched and Burned Badly.
"I was troubled with eczema for several months. It broke out in little pimples on my arms, hands, and right hip, and itched and burned so badly that I didn't know what to do. I was unable to do any work."
"I saw an advertisement for Cuticura Soap and Ointment and sent for a free sample. I bought more and after using one cake of Soap and three boxes of Ointment I was healed." (Signed) Miss Marie T. Hoffmann, R. F. D. 1, Chelsea, Wis., June 23, 1920.
Use Cuticura for all toilet purposes.
Sample Each Free by Mail Address "Cuticura Laboratories, Dept. B, Bismarck, N. D." Send every-where. Sample Cuticura Soap and Ointment free. Cuticura Soap shaves without razor.

sands or more, pending against them in the justice's courts and in every court of the state.
The I. V. A. or some party have prepared for signatures and have bound together in good form some seven initiation petitions:
(1) The first is for a constitutional amendment relating to the issue of bonds. But I think we have had enough of bonds.
(2) The second is in regard to nominations and elections.
(3) The third is for a separate party ballot for primary elections and a one-column ballot for general elections. I see no pressing occasion for changing the election laws.
(4) The fourth is a public depository law of twenty sections. Better let alone the depository laws.
(5) The fifth is a law to amend and re-enact the Industrial Commission Law. It specifies the Industrial Commission shall consist of the secretary of state, state treasurer and commissioner of agriculture. The proposed law has the same fatal defects as the present law. It does not take the state's industries out of politics.
(6) Then there is a proposed rural credit law of twenty-five sections. It is all politics from start to finish. Its purpose is to take over the bank of North Dakota with all its assets and liabilities and to make loans to farmers. It has all the inherent and fatal defects of the present law creating the Industrial Commission. It provides for another Commission consisting of the commissioner of agriculture, the treasurer and three persons to be appointed by the governor, one from each Congressional District. A state officer has all he can do when he attends well to the duties of his office. He cannot attend to matters as it seems to the writer, every state industrial business venture must prove a failure unless it is organized and conducted on strict business principles in some way similar to that of the Federal Reserve Bank. There must be a responsible corporate entity, with responsible directions, expert management and a union of public and private capital. In New Zealand such a system has for many years proven a grand success.
JAMES E. ROBINSON.

With the Movies
AT THE REX.
Mme. Marguerita Sylva, a Belgian prima donna whom the present generation knows as the greatest "Carmen" of the operatic stage, is the ideal embodiment of Merwin's interesting heroine—an actress who displays a rare combination of beauty, intelligence and emotional power in the super special photoplay, "The Honey Bee," which is shown at the Rex tonight.
"The Honey Bee" boasts not only gripping drama that makes you think and holds you rigid with suspense, but delightful humor and uproarious comedy. The latter is furnished by George Hernandez and Harvey Clark, fun-makers and character men extraordinary.
In addition a clever two reel comedy by O'Herry is shown. Wednesday Gladys Brockwell in "The Sage Hen"

PAINS IN SIDE AND BACK
Caused by Woman's Ills and Cured by Lydia E. Pinkham's Vegetable Compound
Grafton, Pa.—"I was troubled with inflammation and pains in my side and back. After doctoring with different doctors and not getting relief, I had almost given up hopes when my sister told me of Lydia E. Pinkham's Vegetable Compound, and knowing that she had really been helped by it, I purchased it. I was unable to do any work at that time, but after taking several bottles of the Vegetable Compound I can now do anything about the house or farm that a woman should do. I have a four-months old baby that is the healthiest and biggest baby for his age that I have ever seen. I am willing for my letter to be used for a testimonial to tell other suffering women how much your medicine has done for me, as I give Lydia E. Pinkham's Vegetable Compound all the praise."—Mrs. BLAIR L. FISHER, R. D. 1, Box 37, Grafton, Pa.
Working early and late—lifting, carrying, and the heaviest of household duties—is it any wonder that it results in backaches and kindred ills. But every woman who suffers as Mrs. Fisher did should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a fair trial.

MARKETS

BULLISH REPORTS.

Chicago, June 21.—Bullish field reports from the spring crop belt led to advances in the wheat market today after a hesitant start. Aberdeen, S. D., messages from a leading authority said fields were lying badly in spots and that in some places the crop had been entirely destroyed by drought. Opening quotations, which varied from 1-2 cent decline to 1 cent advance, were followed by material gains all around and then by something of a reaction.

Reports of severe droughts in France counted later as a bullish influence and there was also talk of exporters being after wheat in volume. Close strong, 2 1/2 to 4 1/4 cents net higher.

The AMERICAN LEGION

ALONG THE LINE OF MARCH WITH THE NATIONAL SERVICE MEN

(Copy for This Department Supplied by the American Legion News Service.)

ARIZONA CITIZENS ERECT LEGION HOSPITAL IN RECORD TIME

No. 1.—Part of Army of Volunteer Workmen, 5,000 Strong. No. 2.—Governor Campbell at Wheel of State Highway Truck, Hauling Material and Workmen. No. 3.—Governor Campbell Wearing Overalls That Later Brought \$200 for Post Park Red Cross Fund. No. 4.—Left to Right: O. C. Parker, Mayor of Tucson; Bert H. Clingan, Commander Department of Arizona, American Legion; E. J. Winslett, National Vice Commander, American Legion. No. 5.—Dr. I. E. Huffman, Commander Legion Post at Tucson.

A SPECTACLE believed to be at least as unique in American history and one that has given tremendous impetus to the nation-wide fight of the American Legion to obtain at least simple justice for sick and disabled heroes of the World War, was staged in the thriving little desert city of Tucson, Ariz., recently.

Led by Gov. Thomas E. Campbell and national, state and local representatives of the Legion, the entire efficiency of the community brought every business activity to a standstill for a day while more than 5,000 men and women in overalls or other appropriate working garb, drove their automobiles to Postmile park, three miles north of the town, and labored with their hands to expedite construction of an emergency public health service hospital for tubercular ex-service men.

Governor Campbell, E. J. Winslett, national vice commander of the Legion; State Commander Bert H. Clingan, Mayor O. C. Parker and hundreds of other prominent business and professional men of the city and state appeared in real working clothes and manipulated shovels, picks, hammers, saws and wheelbarrows in the greatest frenzy of activity the community had ever known. The immediate result was that the emergency institution which government engineers originally had estimated it would take three months to build, was brought to virtual completion within one week, and more than 500 tubercular derelicts of the war who had been unhospitalized and partly shelterless, suddenly found themselves with a roof over their heads.

The whole demonstration was planned and carried out within a little more than 48 hours, while Governor Campbell and State Legion Commander Clingan made flying trips from Phoenix to address a mass meeting under legion auspices at the armory on the evening preceding the park event, and to participate in the "heavy work" there next day. The chief executive of the commonwealth, pushed a wheelbarrow full of rocks, drove an army truck and wound up his strenuous afternoon with an impassioned plea to Tucsonians, and all good Americans to get together and stand squarely behind the Legion in "the most important movement now starting here for the benefit of the able ex-service men that has yet taken place in the United States."

At the conclusion of his address the overalls the governor had worn during the afternoon, and which figured conspicuously in several limited feet of "movie" film unwound by a Pathé News camera man, were auctioned off to the highest bidder, the Morgan McDermott post of the legion at Tucson. Approximately \$200 for the benefit of a welfare fund for patients at the hospital was realized from the auction, each bidder being obliged to hand over the sum offered, irrespective of whether it was high enough to get the clothes. The bid of the Legion Post was \$70.

The attention of F. W. Galbraith, Jr., the legion's national commander, was first attracted to the Tucson situation after H. D. MacArthur, the public health service physician in charge of the hospital, had gone to Washington and reported that more than half of the 125 patients then in the institution were sleeping in combined army tents, and that there were approximately 450 other tubercular ex-service men entirely unhospitalized in the community as a result of the congestion which followed the signing of the armistice.

In every sense, it was a red letter day in the history of Tucson, Arizona, and America, and an exemplification of the unity and unselfish cooperation which inspired the whole nation during the war and which rarely, if ever, has been so conspicuously displayed in this country since the signing of the armistice.

Women and girls of the community took an active part in the demonstration and members of various women's clubs and civic organizations entered wholeheartedly into the spirit of the event and backed it one hundred per cent.

Social and Personal

ENTERTAIN AT DINNER
Mr. and Mrs. E. J. Taylor and Mr. and Mrs. G. B. Allen entertained at a 6 o'clock dinner tonight in honor of Prof. and Mrs. C. F. Bolt, who leave for Michigan this week. Covers were laid for the following guests: Judge and Mrs. A. M. Christensen, Judge and Mrs. W. L. Hesse, Mr. and Mrs. Alfred Zuger, Mr. and Mrs. E. A. Thorpe, Mr. George Will, Miss Elizabeth Jones, Miss Veit Kaupat, Miss Hazel Nelson and Mrs. and Miss C. F. Bolt. The tables were prettily decorated in lavender and white.

MISSIONARY TO TALK
Miss Isabel Crawford, the heroine of Saddle Mountain, is to be at the First Baptist church Wednesday evening and tell of her work and experiences for the Kiowa Indians. Over ten years of her life was given to preach the gospel to the Kiowas and blanket Indians and a special invitation is given to all Missionary Societies of other churches and people of the Baptist church to hear this missionary, who is touring our state at this time. Come and hear her at 8 o'clock Wednesday evening.

MARRIED AT WASHBURN
Mr. Carl A. Fugle and Miss Anna V. Lake, both of Coleharbor, were married yesterday by Rev. Brevik, of the Lutheran church, at Washburn. Mr. Fugle is cashier in the Northwestern State bank at Coleharbor. Mr. and Mrs. Fugle had planned a trip to Yellowstone park but on account of the washouts will have to postpone their trip.

TO GIVE SILVER TEA
Mrs. E. H. Vesperman and Mrs. F. A. Knowles will give a silver tea tomorrow afternoon at Mrs. Knowles' residence, 16 Ave. A, for the benefit of St. Mary's parish. A cordial invitation is extended to all members of the parish to attend.

VISITING SISTER
The Misses Agnes and Mildred Bergstrom, of Crookston, Minn., are visiting at the home of their sister, Mrs. C. F. Dirlam, at Person Court. Miss Agnes has been teaching at Seattle and is visiting her sister on her way home from school.

EPWORTH LEAGUE MEETS
The regular monthly business meeting of the Epworth League will be held at the McCabe Methodist church tonight at 8 o'clock. All members are urged to be present.

TO GRAND FOLKS
Mr. R. W. Dutton and wife, Mr. L. K. Thompson and Mr. R. W. Lumley left for Grand Forks, where they will

GIRLS! LEMONS WHITEN THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Gwynard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

FIRST IT'S A SCARF—PRESTO! A SWEATER!

That things are seldom what they seem is shown by the scarf sweater so popular in the summer girl's wardrobe. When you see a smartly dressed girl in a transparent blouse and attractive wash satin skirt flaring forth indifferent to an approaching drop in the temperature—don't worry. That insignificant looking scarf thrown carelessly over her arm is a sweater

in disguise. If your look at the three accompanying pictures you will under-

stand. First the scarf is opened revealing two kimono sleeves. The girl thrusts her arm into the right sleeve (left) and pulls the scarf around her (figure on right) like a sash. It is then carried around the back to the left shoulder (center figure). In vivid colors, green, coral, yellow, this summer sweater is an invaluable part of a woman's outfit.

"Merchandise of Merit Only."

Smart Sport Togs
Denote Fashion's Partiality

NO longer limited to the sturdy apparel worn by participants in the games, "Sports Apparel" is correctly applied to any daytime costume combining a pleasant informality with ease of movement and evincing an undeniable smartness. Under the classification our suits of Tweed and Jersey of becoming line, sweaters brilliant in summer's gayest colors, Knitted capes distinctly a present season mode, and two pals, skirts and middies which know no feature that does not make for comfort.

Sports Suits at \$19.50 and up.
Sweaters at \$6.50 up.
Knitted Capes at \$13.50 up.
Silk Skirts at \$15.00 up.
Wash Skirts at \$4.25 up.
Middies at 98c up.

TRACK WORKER BADLY HURT
Five Section Men in Accident On Soo Line

Archie Chibean, section worker on the Soo line, is in Bismarck hospital today in a semi-conscious condition suffering from injuries sustained in an accident at Wilton yesterday. Chibean, with four others, was on a track speeder. A tool fell from it under a wheel and the speeder plunked off the track. Chibean suffered a fractured skull, fractured nose and fractured left leg. His face was badly cut. Section Foreman Chris Pfahl was seriously injured, suffering body bruises. The others were less seriously hurt. Chibean was brought to Bismarck for medical treatment.

ISSUES REQUISITION
Governor Frazier has issued a requisition asking the Governor of South Dakota to return Henry Demarce, of Benton county, wanted to face a charge of abandonment of wife and children, to North Dakota.

Found Guilty.
Tom Mahoney, living on Nineteenth street, was found guilty of disorderly conduct by a jury before Police Magistrate Caspman yesterday afternoon. The complaining witness was Mrs. Grace Wilson, a neighbor. It was alleged by Mrs. Wilson that Mahoney has cursed her and beat a horse owned by her with a hammer. The difficulty, it was said, was caused by the picketing of the horse to graze. H. P. O'Hare, city attorney, represented the prosecution and E. S. Allen defended Mahoney.

MRS. NORA J. COCHRAN
formerly of the Dunraven, Third Street, having recently moved into her new home "The Mohawk," 401 Fifth Street, will begin serving meals, home cooking, beginning Wednesday, June 29. Those desiring board or board and room may communicate with Mrs. Cochran by calling telephone Number 145.

LEATHER NOW

Black patent leather ribbon is used on this Lucile gown for Kathleen Martin of the Nine O'clock Revue. Chateau charmeuse for the lower skirt. The upper part and the blouse are of chiffon.

The Spencer
Corsetiere will be at The Grand Pacific Hotel from the 27th until July 1st.
Mrs. F. W. Moffit
